Its time to put an end to censorship. Its time to put an end to big business self-interest squashing the little guy.

Fair competition is what makes America great. When companies (with over a million PAYING customers) are at risk of losing to large corporations by way of lobbying and contributions, it corrupts the system, and unlevels the playing field.

Hands off satellite. We pay for this service, and we expect to get what we pay for. If the NAB doesn't like local services on satellite, perhaps they should deliver a superior product. But until they do, lobbying to remove competition that inconveniences them is unfair and unamerican.

-Barry
